## **5. INCIDENTS ON TRACK**

- 5.1. Competitors involved in incidents are required by MSA to submit a report to the Clerk of the Course (hereafter known as the CoC) within 30 minutes of the finish of the practice or race. The relevant Club committee may, in the absence of any incident report to the CoC, request incident reports from competitors which will be referred to the CoC. MSA Circuit Racing SSR 61 applies.

Should the second heat be at the start of the next meeting, the competitor will not start heat 1 and will start from pit lane for heat 2. Should the following meeting be an endurance race where double points are normally scored, the competitor will only score half points for the final position obtained.
- 5.8. Two red cards in any one season will automatically exclude the competitor for the rest of the season. If the rest of the season has only 1 heat left the red card will be extended to the first heat of the following season. Should the next heat be an endurance of 1 race only, see 5.6 above.

- 6.6. The grid for race one of a round will be determined by qualifying times in official practice.
- 6.7. The grid for race two of a round will be determined by the finishing order from race one. Should a driver not finish the first race they, with the approval of the CoC, may start behind the last car of their relevant class. Should a car not attend qualifying it will be placed on the grid in the next position behind the slowest qualifier in its class, even if cars of a slower class may be ahead of it.
- 6.8. The start of each race will be by way of a rolling start. Competitors must ensure that the gap between the cars coming onto the start straight is no greater than one car length.
- 6.9. No on-board timing devices or radio communication is allowed in competitors' cars. Pit Lane signalling is permitted. This includes cell phones or any handheld device that can be used as a tuning device.
- 6.10. Points will be scored in classes on the following basis for each race:
  - 1<sup>st</sup> 10 points
  - 2<sup>nd</sup> 9 points, and so down to 1 point for 10<sup>th</sup>
- 6.11. Where an event is held with more than one race, each race will be scored as a separate race. Where an event

is run with only one race of longer duration, double points will be scored.

- 6.12. Subject to clause 6.13, a competitor may accumulate points from more than one class during the season, towards the Championships. All class points shall be scored in the relevant class in which the car raced.
- 6.13. Should Three or fewer cars in a particular class start official practice at an event, the championship points for that class will be awarded as follows for each race:
- |                            |                            |                            |
|----------------------------|----------------------------|----------------------------|
| 3 Cars                     | 2 Cars                     | 1 Car                      |
| 1 <sup>st</sup> = 9 points | 1 <sup>st</sup> = 8 points | 1 <sup>st</sup> = 7 points |
| 2 <sup>nd</sup> = 8 points | 2 <sup>nd</sup> = 7 points |                            |
| 3 <sup>rd</sup> = 7 points |                            |                            |

#### 6.14. **INDEX OF PERFORMANCE**

Points scored per heat (If only 1 heat, double points will be awarded)

1<sup>st</sup>: 10 points

2<sup>nd</sup>: 9 points, and so down to 1 point for 10<sup>th</sup>

Index calculation

$$\text{IOP}\% = \frac{\text{FL}}{(\text{RT}-\text{Cred}) / \text{L}} \times 100$$

IOP % = Index Of Performance in percentage

FL = Fastest Lap

RT = Race time

Cred = Credit of 0,5sec per grid row (1<sup>st</sup> row 0 sec)

L = Laps completed

- 6.14.1 Because of the credit mentioned above, a competitor may want to qualify slower to get more credit, and therefore more time deducted from his (or her) race time, which will result a better index %. Therefore, if a competitor goes 2,5 sec faster in the race than in qualifying, he (or she) will be disqualified immediately. If a competitor experiences a problem during qualifying, he (or she) can report this to the scorer, and he (or she) will NOT be disqualified but will get NO credit on the grid. This disqualification will only be applied in Heat 1, not in Heat 2

- 6.14.2. To classify for Index, a competitor must cross the finishing line at the end of the race (he (or she) must get the checkered flag) So, if a competitor breaks down on lap 9 (of 10) and stop, he (or she) will be classified as a finisher (66% of the race) but his (or her) index will not be calculated. If he (or she) only slows down and complete 9 laps and crosses the finishing line at the end of the race, his (or her) index will be calculated.

If a competitor gets excluded in Heat 1, he (or she) will also be excluded from the overall index results.

- 6.15. In the case of a tie, the competitor with the greater number of 1st place points will be declared the Champion. If this does not resolve the tie, then the greater number of 2nds failing this, 3rds and so on until the tie is resolved. If a tie still remains, MSA shall declare a winner on such basis as it deems fitting.
- 6.16. For any Northern Region Regional championship event at a circuit outside Gauteng, a competitor who participates by commencing a lap, whether in practice (official or unofficial) or in a race, will be awarded an extra ten points towards the Championship.

#### 7. **VEHICLE CLASSIFICATION**

- 7.1. The final decision as to the classification type of any vehicle shall rest with the HMC, which shall be entitled to make that decision in consultation with HRSA. Aspirant competitors are strongly advised to consult with the MSA HMC Technical Consultants (hereafter referred to as a TC) regarding compliance with the Technical Regulations prior to starting their investment programme. The HMC Sporting Workgroup committee shall, upon submission of an HMC Historic Technical Passport (hereafter referred to as an HTP) by the competitor, determine the category in which such vehicle shall race in the Championships.
- 7.2. No car shall be permitted to race in the Championships unless the owner/competitor has a valid HTP approved by the relevant TC and is registered with the Club.
- 7.3. Competitors will be required to complete a HTP for every vehicle to be raced, and on which full details of

engine, gearbox, suspension, lightweight panels, wheel sizes, etc. and any other information required by the MSA HMC, shall be recorded. Competitors will also be required to use the new type MSA SCRUTINEERING / LOGBOOK.

- 7.4. Any competitor whose vehicle is found by the TC to differ in specification from his/her HTP and/or logbook will be requested to make the necessary changes before the following race meeting and the car has to be presented again for inspection.
- 7.5. Should a competitor be requested in writing by the TC to make any changes to the vehicle, including its appearance or colour scheme, and should such competitor fail to comply within 90 days, the vehicle shall be de-registered by the MSA HMC, and will not be eligible for participation in this Championship.
- 7.6. It is the competitor's responsibility to ensure that the HTP reflects the cars current status at each race meeting. If the car at a race meeting is found to differ in any way from the HTP then MSA GCR Part VIII Penalties Clause 176 Penalties for Technical Infringements will be invoked.

## **8. CLASS STRUCTURE**

- 8.1. All competitors will race in time classes as published by HMC from time to time for each circuit. Time classes will be issued as an Appendix A to these regulations. These time classes shall also include immediate break times.
- 8.2. The relevant Club committee shall determine the class in which a new car / driver or a revised car / driver combination shall compete. This includes Vehicles which have changed ownership. The competitor shall remain in that class until the competitor has set a timed lap in qualifying, thereafter they will be placed in the relevant class.
- 8.3. A competitor may at any time, after two events have passed in which the competitor has participated and failed to attain the allocated class times, apply to the relevant club committee in writing with supporting documentation, to change a vehicle from a higher class to a lower class (e.g., from Class E to Class F).
- 8.4. A competitor shall not be allowed to change a car/driver combination from one class to another without prior written permission of the relevant club committee.
- 8.5. A Competitor shall not be allowed to change his vehicle on a race day without permission from the relevant club committee in writing. The relevant Club committee has the right to determine if such a change warrants a class change under rule 8.2 above. A new Car/Driver combination shall be scored as a new competitor. Scoring is done as per car/driver combination. No two cars may have the same number in one category.
- 8.6. In the event that a competitor outperforms the class, to which the driver/car has been allocated, by lapping at least 0.10 seconds faster than the class break out lap time, on any single race lap at an event (inclusive of and not limited to sprint races, endurance and any other race) the competitor will be penalized by the amount of time by which the competitor outperformed the lap time limit, times the number of laps in the race, times 1.5, rounded up to the nearest sec with a maximum of 30 seconds.
- 8.7. If a competitor laps at least 0.10 seconds faster than the immediate break out time for his class, on any official lap at an event, whether in qualifying or in a race, the competitor will be moved up a class immediately. If the breakout occurred during qualifying or in the first race, the competitor will be moved to a suitable higher class and points scored for the day will be in the higher class. If the breakout occurred in the last race of the day, the penalty as in rule 8.6 will apply and the competitor will be moved up to a suitable class for the next event, he/she competes in. This move may be advised verbally by the committee member appointed by the club for the duty.
